VI. Reading Comprehension (12 Marks)

Read the following passage then answer the questions below:

Bees live in a house that is called a hive. There are three kinds of bees: workers, drones, and queens. Only one queen bee can live in each hive. If she is lost or dead, the other bees will stop their work. Bees are very wise and busy. They take their place, and do their own work.

Bees **join together** to build hives for honey. The cells of the hives which they build are all of one shape and size. They are not round, but have six sides. Did you ever look into a glass hive to see the bees while working?

It is nice to see how busy bees always are. It is not safe for children to catch bees because bees have sharp stings that they use when they are in danger.

A) From a, b, c and d choose the correct answer: ***(4 x 1½ = 6)***

22. The best title for this passage can be ....

a) The glass hive **c) Children catch bees**
